GOLDSTERN ERP · ENTERPRISE EDITION

EXECUTIVE SALES DECK · 2026

AUTOMOTIVE IMPORT, SHOWROOM & MULTI-CURRENCY FINANCIAL PLATFORM

# The Complete Operating System for Car Importers & Dealerships

Track every vehicle by VIN from foreign purchase order and customs clearance to showroom delivery—backed by an institutional-grade, multi-currency double-entry accounting engine.

### 100% VIN-Level

True Landed Cost & Gross Profit per Car

### Multi-Currency

EGP, EUR, USD with Automated FX Revaluation

### Odoo-Standard

74+ Chart of Accounts, Subledgers & Financial Statements

### 228+ Automated

Built-In Financial & Cryptographic Audit Verifications

# Why Traditional ERPs & Spreadsheets Fail Car Importers

Automotive importers and luxury showrooms face unique financial complexities that generic accounting software cannot handle without messy workarounds.

01

## Blind Car Profitability

Import costs (ocean freight, customs duties, clearance, inland transport, marine insurance) arrive on separate dates in different currencies.

- ✓ Dealers don't know the true landed cost per VIN until weeks after sale.
- ✓ Expenses get dumped into generic overhead instead of capitalizing onto the vehicle.
- ✓ Impossible to see instant net margin per car or per customer deal.

02

## Foreign Exchange Chaos

Vehicles are bought in EUR or USD, customs and expenses paid in EGP, and customer deposits received in mixed currencies across fluctuating rates.

- ✓ Manual FX calculations in Excel lead to costly accounting errors.
- ✓ Customer deposits & supplier advances at historical rates get misapplied.
- ✓ Month-end foreign currency bank revaluation is ignored or guessed.

03

## Disconnected Operations

Sales teams, purchasing officers, and accountants work in separate silos with zero real-time visibility into vehicle status or partner balances.

- ✓ Cars sold before customs costs are fully recorded.
- ✓ Unreconciled customer deposits and vendor advances across multiple deals.
- ✓ Lack of role permissions and tamper-proof audit trails exposes the business to fraud.

# One Unified Platform: From Foreign Supplier to Showroom Handover

Goldstern ERP bridges vehicle operations and strict double-entry accounting—every operational click automatically posts balanced, auditable journal entries.

**STEP 1 · ORDER**

### Car Order & VIN

Create Customer Import, Stock Import, or Local Purchase. Auto-detects car brand from 17-char VIN.

**STEP 2 · ADVANCES**

### Deposits & Prepayments

Collect customer deposits & pay supplier advances in EUR/USD/EGP locked at order exchange rates.

**STEP 3 · LANDED COST**

### Car Expenses

Capitalize shipping, customs, inspection & clearance directly onto the vehicle's inventory value.

**STEP 4 · RECEIVE**

### Showroom Stock

Supplier bill posts & receives the car into inventory at exact EGP cost (Purchase + Landed Costs).

**STEP 5 · SELL & DELIVER**

### Customer Invoice

Issue sales invoice, auto-apply customer deposits, recognize COGS, and generate Delivery Note.

**STEP 6 · CLOSE DEAL**

### Deal Lock & Profit

Instant VIN P&L report showing Purchase, Landed Costs, Revenue, FX Gain/Loss, and Net Margin.

## Built for Owners & Operators

Designed so showroom managers and operations staff can run the entire car lifecycle with one-click guided workflows—without needing an accounting degree.

- ✓ 3 Order Modes: Import for Customer, Import for Stock, Buy from Customer
- ✓ One-click PDF Car Dossier with full cost & payment history

## Built for CFOs & Auditors

Under the hood sits a rigorous, IFRS/EAS-compliant financial core with zero floating-point rounding errors and real-time subledger reconciliation.

- ✓ Exact 40-place Decimal math engine (zero float drift)
- ✓ Odoo-compatible Chart of Accounts with 1-click Account Duplication

# 8 Integrated Enterprise Modules in One System

Everything your dealership needs—eliminating third-party add-ons, manual data re-entry, and reconciliation delays.

01

## Executive Dashboard

- ✓ Live Cash & Bank Liquidity
- ✓ AR & AP Aging Visuals
- ✓ YTD Net Profit & Alerts
- ✓ 60-Day Bank Sparklines

02

## Purchases & Imports

- ✓ Customer & Stock Car Orders
- ✓ Supplier Bills & Prepayments
- ✓ Marine Shipments & B/L
- ✓ Vendor Statement & Aging

03

## Sales & CRM

- ✓ Customer Inquiries & Quotes
- ✓ Sales Orders & Pro-Forma
- ✓ Customer Invoices & Receipts
- ✓ Delivery Notes & Handover

04

## Cars Inventory

- ✓ Full Vehicle Registry by VIN
- ✓ Brand/Model Auto-Recognition
- ✓ Stock Valuation & Movements
- ✓ Physical Inventory Counts

05

## Car & General Expenses

- ✓ Capitalized Landed Car Costs
- ✓ Showroom & Admin Expenses
- ✓ Recurring Expense Schedules
- ✓ Direct Cash/Bank Settlement

06

## Multi-Currency Banking

- ✓ EGP, EUR & USD Bank/Cash Books
- ✓ Inter-Account FX Transfers
- ✓ Statement Import & Reconcile
- ✓ Foreign Currency Revaluation

07

## Core Accounting & Tax

- ✓ Odoo COA + Account Duplicate
- ✓ Multi-Currency Journal Entries
- ✓ Fixed Assets & Depreciation
- ✓ 14% VAT, WHT & E-Invoicing

08

## HR, Payroll & Reports

- ✓ Employees, Salaries & Payroll
- ✓ Balance Sheet, P&L, Cash Flow
- ✓ Car Profitability Analytics
- ✓ Formatted Excel & PDF Exports

# Granular Per-Car Costing & Profitability Engine

Know your exact cost and profit on every single chassis number down to the piastre—across multiple currencies and cost components.

## Automatic Cost Capitalization (IAS 2 Compliant)

Every expense linked to a vehicle automatically capitalizes into **Inventory — Import Costs** while the car is in stock, and flows into **COGS** upon sale:

- ✓ **Foreign Purchase Price:** e.g., 45,000 EUR converted at order/bill exchange rate.
- ✓ **International Shipping & Marine Insurance:** Paid in EUR/USD or EGP.
- ✓ **Customs Duties & Port Clearance:** Non-recoverable duties capitalized directly to VIN.
- ✓ **Inland Transport & Inspection Fees:** Tracked by supplier and voucher number.
- ✓ **Post-Sale Expenses:** Automatically routed to COGS if recorded after delivery.

## Live Car Order Financial Sheet

Every Car Order displays a real-time executive breakdown:

| | |
|---|---|
| Purchase Price (40,000 EUR @ 50.00) | **2,000,000.00 EGP** |
| Capitalized Landed Costs (Customs, Freight) | **+ 185,000.00 EGP** |
| **Total Landed Car Cost** | **2,185,000.00 EGP** |
| Customer Sale Price (INV-2026-00012) | **2,600,000.00 EGP** |
| **Net Realized Gross Profit (16.0%)** | **+ 415,000.00 EGP** |

# Institutional-Grade Multi-Currency Accounting (IAS 21)

Engineered specifically for high-value foreign trade where exchange rates move daily and cross-currency settlements are the norm.

FX

## Smart Exchange Rate Engine

- ✓ Canonical rates (EUR→EGP, USD→EGP, EUR→USD) with automatic reciprocal & cross-rate derivation.
- ✓ Historical date-effective lookup prevents silent fallback to wrong rates.
- ✓ Immutable approved rates with Segregation of Duties (creator cannot self-approve).

⇄

## Cross-Currency Settlements

- ✓ Customer can pay EUR into an EGP cash box or EGP against a EUR order at an agreed deal rate.
- ✓ Automatic calculation and posting of Realized FX Gain/Loss upon invoice settlement.
- ✓ Period-end Unrealized FX Revaluation on foreign bank accounts & open AR/AP.

COA

## Odoo-Compatible Chart & Reports

- ✓ Pre-loaded 6-digit Odoo Chart of Accounts with 1-click Account Duplication & custom icons.
- ✓ Real-time Partner Ledger showing per-currency and EGP running balances.
- ✓ Trial Balance, General Ledger, Balance Sheet, Income Statement (P&L), and Cash Flow.

# Bank-Grade Internal Controls & Tamper-Evident Audit Trail

Protect your dealership from internal errors, unauthorized back-dating, and financial manipulation.

16

## 16 Granular Role-Based Access Profiles (RBAC)

Assign precise permissions across modules (Read, Create, Edit, Post, Approve, Close, Export):

- ✓ **Super Admin & Finance Manager:** Full governance, period locking, and rate approvals.
- ✓ **Chief Accountant, GL, AR & AP Accountants:** Scoped to their exact accounting ledgers.
- ✓ **Purchasing, Import & Sales Officers:** Manage vehicle orders and invoices without access to fiscal settings.
- ✓ **External Auditor / Read-Only:** Full inspection access with zero mutation rights.

## Cryptographic Hash-Chained Audit Log

Every single creation, modification, posting, or permission denial is permanently recorded:

- ✓ **Tamper Detection:** Each audit record is cryptographically linked to the previous entry—modifying or deleting any historical log is immediately flagged.
- ✓ **Fiscal Period Controls:** Open, Soft-Closed, and Locked monthly periods prevent back-dated tampering after month-end close.
- ✓ **Subledger Integrity Verifier:** One-click diagnostic reconciles GL Control Accounts against AR, AP, Bank, and Vehicle Inventory subledgers.

# Why Goldstern ERP Beats Generic ERPs & Legacy Software

Purpose-built for automotive trading—delivering immediate ROI without $50,000+ implementation fees or 6-month consulting projects.

| CAPABILITY | GOLDSTERN ERP | GENERIC CLOUD ERP | EXCEL / LEGACY APPS |
|---|---|---|---|
| **VIN-Level Landed Cost Capitalization** | **✓ Built-In Native Workflow** | Requires expensive custom dev | Manual & error-prone |
| **Customer-Specific vs. Stock Car Import Cycles** | **✓ 1-Click Guided Lifecycle** | Complex multi-module setup | Disconnected sheets |
| **Cross-Currency Deal Advances (EUR/USD/EGP)** | **✓ Auto-Tracked & Applied** | Manual journal adjustments | High risk of FX loss |
| **Bilingual Interface & Arabic/English COA** | **✓ Instant RTL/LTR Toggle** | Paid localization packs | Single language |
| **Deployment Speed & Zero-Latency UX** | **✓ Instant (Same-Day Go-Live)** | 3 to 6 months setup | Breaks at scale |
| **Built-In Automated Verification Suite** | **✓ 228 Financial & UI Tests** | None included | Zero validation |

# Designed for Speed, Clarity & Zero Training Friction

An executive, eye-comfortable interface inspired by modern fintech platforms and Odoo 18 ergonomics.

### Instant Live Search & Filtering

Filter orders, vehicles, invoices, and profitability reports in real time as you type—by VIN, chassis, customer, supplier, status, or order type.

### Full English & Arabic (RTL)

Switch seamlessly between English and Arabic at any time. Every account, report, and document supports bilingual names and formatting.

### 1-Click Excel & PDF Exports

Export formatted Excel workbooks (.xls) and executive print/PDF sheets for Car Reports, Partner Ledgers, Financial Statements, and Aging Reports.

### Zero Infrastructure Lock-In · Cloud or On-Premise Ready

Runs effortlessly in any modern browser on Desktop, Tablet, or Mobile with instant backup/restore JSON snapshots and full offline resilience.

**100% Web-Native**

READY FOR IMMEDIATE DEPLOYMENT

# Take Full Control of Every Vehicle, Every Currency, and Every Pound of Profit.

Experience Goldstern ERP live—from importing a vehicle and capitalizing customs duties to delivering the car and generating instant financial statements.
